# COMFORTABLE LIVING SPACE

The key to having a work-life balance lies not only on the management of your workload, but also in how orderly your workplace is. Given that many of us are forced to do work from home due to pandemic, it's important that we pay attention to how we put boundaries between life and work. Furniture, for example, is the best way to make physical attributes to put things in their respective spaces. At Philippine Primer, we understand the needs of this grey area that most people often forget. This month, we are sharing tips and tricks on the home renovation that is both easy and practical.

Feature by Chris Salido, Paolo Mabuyo & Layout by Dantes Remot

## Home Interior Renovation Techniques!

Now that we spend more time at home than before, we need to utilize the limited space we have in our house wisely. Separating your work and private space can increase your work efficiency while also improving your personal time. We want to improve our place while trying not to spend too much on it. That's why we asked Mr. Terada of Tokyo Grand Renovation, an interior design expert, to share with us renovation tips and tricks!

## Tips for better ambiance for your personal space

### Improve the aesthetics of your private space

Carpets and rugs give your interior the ambiance of a luxury hotel. Install it across your floor if you want to give it some sort of majestic vibe. You can buy a 2m x 2m carpet on Lazada for around P1000-2000. Once installed, you'll immediately see the difference.

### If you manipulate your home's lighting, the atmosphere will change and improve!

Putting table lamps in a room and lighting them in a low position will cast shadows on the ceiling. It will dramatically improve the mood of your interior due to the illumination created by the intermingling lights and shadows.

### Improving toilet lighting

For bathrooms, either make the room very bright with a high-wattage LED light, or use dim lights to create a more calming atmosphere. If you use a clear LED light bulb, it will cast a clean and sharp shadow. Use this type of lighting if you want to create a more sharp ambience. But in the end, you can choose whatever lighting that suits your taste and preference.

## Tips when decorating narrow interiors

Pick the right furniture for the right space. Many people choose furniture based on their appearance first, but their size is the most important factor, practically speaking. If you get small furniture, you can maximize your spaces and make your home stylish, as well as functional.

### Movable furniture are the best

We recommend getting furniture with tires or are foldable rather than traditional ones. It can save you precious space by placing them next to the bed or by arranging them together.

## Tokyo Grand Renovation

A Japanese renovation company that promotes highly practical Japanese ideas regarding space and aesthetics. Before proposing a design, they take into consideration the needs and wants of their clients. They lay out carefully planned construction schedules that take into account the traffic conditions and delivery speed of materials.

They carry out thorough on-site management "cleaning, maintaining, and sorting." Maintaining the interiors of local residences, shopping malls, stores, office buildings, etc. is their main business.

They also do construction and design projects, as well as distribute and install Happy Wash-U (high-tech Japanese toilet). They've renovated many commercial facilities such as high-end condominiums, spas, salons, and offices, Japanese restaurants in Metro Manila.

## Bunk beds and desks are great space savers

If you want to save space, look for a two-tiered bunk beds with a desk on the bottom and a bed on top. Regular bunk beds are a good idea for siblings who share their rooms.

## If you want a comfortable working station...

### The key to improving work efficiency is getting a comfortable work chair with proper height

The Philippines follows the American standard chair height of 45 cm. Depending on your height, this could be too tall, resulting in your heels not touching the floor. This may get you tired faster at work though so you should consider the height when purchasing a chair. Otherwise, you can buy an office chair with adjustable height.

### Choose a quiet place for work

Ambient sounds matter more than your background in a work station. Many people feel anxious about their rooms being shown in the background when attending online meetings. However, if you are not required to turn your webcam on, rather, focus on getting rid of unnecessary background noise. It will surely distract you if you hear them during meetings. If you don't have a noise-canceling microphone, work in a quiet place or somewhere where there are few people around if possible.

## Office Chair Recommendations for Work From Home Setup

Are you using a comfortable chair at home? Sitting down for long hours will make you tired. That's why we are featuring these amazing products courtesy of Uchida Yoko Global Co., Ltd.

### AJ Chair

SRP : PHP 19,000

It has a leaning back in 3D mesh structure, which is made up of 356 pcs of cells. The reclining strength is automatically adjusted according to the physique and posture of the sitting person, making this the perfect chair for offices, meeting rooms, and receptions.

#### Where to buy:

INFINUS CORPORATION

#30 ITC Compound Saint Dominic Street Brgy. Canumay East Valenzuela City Philippines

\*Listed prices are for Filipino stock items (color, model) only. Please contact us for details.

### EPO Chair

SRP : PHP 18,000

For the first time in this series, we have adopted a free synchro mechanism for our chairs that make it reclines in conjunction with the back seat. The New Basic Chair, which come in different types, can be used in both offices and work from home setup.

## Primer staff workplace makeover!

Like many others, Primer's staff suddenly had to start working from home without any kind of preparation last March 2020, and had no choice but to work with a temporary set up in their bedroom. After working like this for a year, Primer staff finally decided to improve their work space. It seems working from home will continue for a while. The Primer staff has decided to organize the workstation in his house and buy a desk. Let's see how things have changed.

### Before

A temporary desk made by covering a square table with a table cloth. Random stuff can be found around the MacBook. Primer magazines, deodorants, ballpen, mugs, etc. are scattered all over the desk, which is placed by the window for better lighting during Zoom meetings.

### After

Primer staff purchased an assemblable desk for P1,400 on Lazada, an online shopping app. It has enough width, yet the depth is shallow so it fits perfectly in the space allocated for it in the room. The work station is quite large: with shelves and drawers for storage. The staff decorated it with a photo frame and plants to create a relaxing atmosphere.

We asked Mr. Terada to rate it! Mr. Terada's rating:

Since there is a cabinet on the side, at first glance it felt like the desk itself was small. Cabinets with top and bottom shelves are highly recommended because they provide extra storage space.

# LET'S GROW SOME HOUSEPLANTS

To those living in the Philippines, which has a warm climate all year round, this is a great opportunity to grow houseplants! By adding some to your home, it turns into an amazing living space. In this article, we are featuring plants that will thrive in the climate here in the Philippines and where to buy them. In addition, we are also showcasing frequently used items for this increasingly popular hobby.

## Recommended plants to grow in the Philippines

We listed down low-maintenance plants for beginners. Their common English names are also included for easy reference when you look for them in a shop.

### Dracaena reflexa

Common English names: Song of India, Song of Jamaica

The Song of India grows long, bright green and yellow leaves. It grows fast and is durable, which is perfect for beginners. However, the tips of the leaves tend to wither due to fluorine in the water and dry air. Fortunately, the plant itself will live even if its leaves wither.

### Epipremnum aureum

Common English names: Golden pothos, Devil's Ivy

It produces shiny green and yellow mottled leaves. A popular houseplant because it is easy to grow even in indoors. It's a creeping vine shape suitable for hanging pots. New plants can be grown from cuttings. Its leaves are poisonous so don't let small children or pets ingest them.

### Syngonium podophyllum

Common English names: Arrowhead Plant, Arrowhead Vine, Goosefoot

The goosefoot has arrowhead-shaped leaves with beautiful patterns. It's a creeping vine perfect in a hanging pot. Do not ingest its leaves as they contain poison like pothos. Keep this plant out of reach of children and pets.

### Tillandsia

Common English names: Air Plant, Sky Plant, Tillandsia

A unique plant that grows without roots. Since it does not require soil to grow, it gives people the freedom to be creative with their Air Plant displays. The plants enjoy bright light, and can rot from too much watering. Various species of Air Plants are available in plant shops across the country.

### Monstera deliciosa

Common English names: Monstera

A large plant with notched leaves larger than the palm of the hand. It has aerial roots that absorb water and nutrients in the air that also support it when climbing surfaces.

### Sansevieria trifasciata

Common English names: Mother-in-law's tongue, Snake plant

A succulent with hard, thick leaves that thrives in dry soil. It has long leaves with straight yellow edges, that can grow up to a meter. It is a very durable plant, so it is recommended for beginners.

## Essentials To Keep Your Plants Look Prettier

### Shelf rack

If you are using small pots, we recommend installing a wall-mounted shelf rack because it doesn't eat up much floor space. Meanwhile, the double-sided shelf is a versatile shelf that can be used as a room divider, or a wall or corner decoration.

### Pot Covers

Let's replant and choose a ceramic pot that is more stylish compared to a regular plastic pot that is generally sold. If replanting is difficult, a pot cover is recommended. There are various materials and designs for pot covers such as rattan, hand-woven folk crafts, and wood to choose from, so it's fun to find the one that suits your plant.

### Hydroton clay pebbles

Hydroton clay pebbles are a kind of an alternative growing medium used instead of soil. Since you don't have to use a pot with a hole in the bottom, you can try planting small plants in a mug, and choose a container in which you will grow your plant.

### Stand

Invest in a good stand. It will help you to see and appreciate more the beauty of the plants because you're giving them enough height and space to grow. If you use stands of varying height, the plants will have a three-dimensional effect and will look organized and beautiful.

### Ornamental stones/sand

You may use ornamental stones and sand as decorations. These can be found at your nearest plant shop's supply sections. You can also use stones from fish tanks that are usually sold in pet stores.

# Houseplant Shop List

If you're looking for shops that cater to your passion for planting or you just started to pursue it as a new hobby, we at the Philippine Primer got you covered. We curated a list of houseplant shops in the Metro that you can visit for your everyday needs and supplies.

# RESTAURANTS OFFERING TAKEOUT, DELIVERY & AL FRESCO DINING

With the ongoing pandemic, the public remains cautious and reluctant to go outside. That's why many restaurants are expanding their services through takeaways and deliveries. They keep innovating ways to ensure that customers will enjoy the food in the comforts of their homes. But if you enjoy eating outside, some restaurants do offer Al Fresco dining with safety protocols being followed. Today, the Philippine Primer curated a list of restaurants that offer Al Fresco dining, takeouts and deliveries to help you get the food you're craving without any hassle.
